BRASEM ZILVER / BREAM Silver: 1 kg Bags. (Standard Range)

This heavy, coarse bottom acting mix is excellent for bream and roach. It can be used on all kinds of waters including lakes but also on canals and rivers, with a soft or strong current. It is bait that requires to be well mixed. For best results moisten the mix with a little water several times and riddle prior to feeding. It can be used as long as the bream is looking for feed. It is a slow acting groundbait with slow performance it continues to work in the swim long after feeding.

SPEEDO 1 kg Bags. (Standard Range)

This an all-round, fast-working bottom baits that is slow acting with a slow release of particles. Speedo feels good in deep or shallow water, fast and slow running water, it can be used anywhere, depending on the mix with other baits of Champion Feed. By adding lighter feed, you can use it in canals, lakes or ponds. It gives a reinforcing active operation to the composition. Speedo is similar in texture to Wonder Black but brown in color. It provides a sticky mix when mixed and is well suited to deeper venues. **There is also SPEEDO BLACK, only available in UK and Ireland.**

VOORN/ROACH/GARDON 1 kg Bags. (Standard Range)

This complex, heavy bottom baits, that feels at home on all types of waters, by his coarse structure and seeds, this mix will attract the larger roach and keep them in your swim. This is an active mix giving off active particles to attract the fish from a distance into the swim. Roach can be used all year round and can easily be mixed with another bait of Champion Feed, according to the needs of the fisherman or to be allowed to use the water. To obtain the best results, moisten and riddle the mix several times until you get the desired consistency. (Standard Range) **There is also ROACH/GARDON BLACK, only available in UK and Ireland.**

WORLD CUP COMPETITION 1 kg Bags. (Standard Range)

This is all-round light bait for Stillwater or slow flowing water. It provides an excellent cloud with low food content. It is best used for competition, when it's hard to catch fish. A good tip is to squeeze a ball softly together when feeding; this creates a slow sinking and cloudy bait that attract small fish from large distance. When squeezing the ball hard, it falls fast to the bottom, where you can attract bigger fish. (Standard Range) **There is also WORLD CUP COMPETITION BLACK, only available in UK and Ireland.**
